# Sportch Club Ladder Competition

Sportch is a unique ladder competition packed with interactive, engaging, and social features to bring members of a club together. The ladder is accessed through an iOS or Android mobile app, or on any browser using the web app.

Each club ladder is completely automated and all of the administration for setting up and running the competition is taken care of by Sportch. Club coaches and volunteers are freed up with more time to focus on all of the other important aspects of running the club.

Here are some of the key features of the Sportch club ladder:

- Your club would get it's own dedicated ladder within the app, along with branded club and coach profiles…

- After a quick sign up, players are placed in zones based on their ability. They then chat and arrange to play their matches through the app…

- A player's status allows them to come and go from the ladder over time, giving flexibility to handle new, leaving or injured members without any disruption to the competition…

- There are lots of social features to keep players engaged including match reviews, applause, statistics and of course a live news feed of matches recently played…

- Rankings, results and tonnes of player stats are visible in real time as matches are completed…

- Eligible matches count towards boosting LTA player ratings!

A COMPETITION FOR ADULTS OF ALL AGES, ABILITIES AND BACKGROUNDS
